AGILE TEAM CHARTER

Group 26 • Professional Practice 3

Business Idea	GABS Online Ticket & Card Top-Up Platform
Course	Professional Practice 3 (PFP3)
Lecturer	Bhadra Ranchod
Date	May 2026

1. Team Purpose

1.1 Objective

Our team aims to identify a real-world problem experienced by commuters in the Cape Town metropolitan area and design an innovative, technology-driven business solution to address it. Specifically, we are developing an online payment platform that enables Golden Arrow Bus Service (GABS) commuters to digitally purchase and load trips onto their Gold Cards, eliminating the dependency on physical ticket booths.

1.2 Vision Statement

> "To empower working-class commuters and students in Cape Town with a seamless, cashless, and convenient digital transit payment experience — so that no one misses their bus."

2. Team Roles and Responsibilities

Our group consists of five members. Responsibilities were divided based on the steps required to complete the assignment, ensuring an even distribution of workload.

Student Number	Name	Role	Task Responsibility
230317693	Joshua Adams	Writer / Editor	Step 4 – Survey & Validation Evidence
230255639	Aidan Barends	Researcher	Step 3 – Problem Identification & Research
230398863	Matthew Barron	Presenter	Step 6 – Value Proposition

Student Number	Name	Role	Task Responsibility
221312536	Joshua Bonzet	Group Leader	Step 5 – Business Idea Development
230270565	Raul Everts	Designer	Step 2 – Community Context & Document Design

3. Team Values and Agile Principles

3.1 Core Values

- Collaboration – We work together, share responsibilities, and support each other to produce the best possible outcome.
- Respect – Every team member's input and perspective is valued. We listen actively and communicate with empathy.
- Transparency – We are open about progress, challenges, and blockers so the team can respond quickly.
- Accountability – Each member takes ownership of their assigned tasks and delivers on commitments.
- Continuous Improvement – We reflect on our process after each sprint and find ways to improve.

3.2 Agile Principles We Follow

- Individuals and interactions over processes and tools.
- Delivering working software (or prototypes) over comprehensive documentation alone.
- Responding to change over following a fixed plan.
- Customer (commuter) collaboration and feedback at the centre of development.
- Frequent delivery of incremental, testable progress.
- Sustainable pace – no single member should be overloaded.

4. Communication Plan

4.1 Communication Methods

Channel	Purpose	Frequency
WhatsApp Group Chat	Daily updates, quick questions, file sharing	Daily
Google Meet / MS Teams	Sprint planning, reviews, retrospectives	Weekly (Mondays)
Google Drive	Shared document storage and version control	Ongoing

Channel	Purpose	Frequency
Email	Formal communications with the lecturer	As needed
In-Person (Campus)	Collaborative working sessions	Bi-weekly or as required

4.2 Meeting Norms

- Meetings begin and end on time. Late arrivals notify the group via WhatsApp.
- The Group Leader (Joshua Bonzet) facilitates meetings and keeps notes.
- An agenda is shared at least 24 hours before each meeting.
- Decisions are made by consensus; unresolved issues are escalated to the lecturer.
- Action items are recorded with an owner and a due date at the end of every meeting.

5. Goals and Milestones

5.1 SMART Goals

Goal 1 – Problem Validation

Conduct a survey of at least 20 Golden Arrow Bus Service commuters using Google Forms by Week 2 to confirm the problem of inconvenient ticket loading is widespread and affects the majority of users.

Goal 2 – Business Solution Design

Define a clear, feasible online transit payment solution — including features, target users, and value proposition — by Week 4, based on survey insights and community research.

Goal 3 – Document Submission

Produce and submit a complete, well-structured group assignment document that meets all rubric requirements, reviewed by all five members, by the official submission deadline.

Goal 4 – Agile Team Charter

Complete and submit the Agile Team Charter reflecting our team's roles, values, communication plan, and project milestones within the first sprint.

5.2 Project Milestones

Sprint	Milestone / Deliverable	Owner	Status
1	Community context & problem definition (Steps 2 & 3)	Raul Everts / Aidan Barends	Complete
1	Agile Team Charter drafted and submitted	All Members	In Progress
2	Survey designed and distributed (20+ respondents)	Joshua Adams	Complete
2	Survey results analysed and key	Joshua Adams	Complete

Sprint	Milestone / Deliverable	Owner	Status
	insights documented		
3	Business idea and service offering finalised	Joshua Bonzet	Complete
3	Value proposition statement written	Matthew Barron	Complete
4	Full document reviewed, proofread, and submitted	All Members	Complete

6. Definition of Done

A task or deliverable is considered “done” when:

- All required content has been drafted and is complete.
- At least one other team member has reviewed it for quality and accuracy.
- The Group Leader has approved the section for inclusion in the final document.
- It has been uploaded to the shared Google Drive folder.
- It meets the assignment rubric criteria.

7. Team Agreement

By participating in this project, all team members agree to:

- Uphold the values and principles set out in this charter.
- Complete assigned tasks by agreed deadlines.
- Communicate proactively if they are unable to meet a commitment.
- Treat all team members with respect and professionalism.
- Contribute equally to the success of the project.

Name	Role	Signature / Acknowledgement
Joshua Adams	Writer / Editor	Agreed
Aidan Barends	Researcher	Agreed
Matthew Barron	Presenter	Agreed
Joshua Bonzet	Group Leader	Agreed
Raul Everts	Designer	Agreed

This charter was created collaboratively by Group 26 as part of the Professional Practice 3 module. It serves as our working agreement for the duration of the project and may be updated by consensus.
